

APPEAL
RAMADHAN RELIEF ACTIVITIES 1442 AH (2021)
BY
HUSSAINI FOUNDATION UNDER SUPERVISION OF
MEHFIL-E-MURTAZA KARACHI

We appeal to the community both local and overseas to contribute/ donate to our Ramadhan Relief Activities for the coming Holy Month of Ramadhan 1442/2021.

Every Ramadhan we have challenges to overcome, increase in beneficiary's members, high rising cost of food items, provide utensils, prayer mat and other miscellaneous items to Centers to cater for Iftar needs.

This year Ramadhan 1442/2021 is going to be another toughest year for all due to the coronavirus pandemic. The requirements are going to increase in both the number of packages and quantity of items to support the families.

Please consider to enhance your donation and contribution and support generously to accommodate more families

May Allah (SWT) bless you to support our Ramadhan Relief Activities and keep you and your family in the best of health and give you all strength to observe fast and answer your Supplications. Ameen

**Our budget for this Holy Month of Ramadhan
1442/2021
is Rs. 75.00 Million**

We thank you in advance for your valuable participation.

This appeal is generally issued on the 15th of Sha'ban but due to the current global situation this year we are circulating it earlier.

APPEAL

SCHOLARSHIP / FINANCIAL HELP FOR BRILLIANT SADAAT / NON SADAAT STUDENTS

It is sixteen long years that Hussaini Foundation has been working to ameliorate the sufferings of the people affected by natural calamity as well as human acts of violence like sectarian killings and terrorism. Because of vastness of the area in which Foundation is working besides coverage by Hadi TV as well as print media, HF has become a familiar name in the community all over Pakistan. We keep getting applications for financial help on various accounts but the most touching is the case of those brilliant Sadat and Non-Sadat students who excel in their studies despite being deprived of good schooling. Because of financial constraints they are unable to continue their studies. This discontinuation of education by such brilliant students is not only personal loss to those families but more than that it is a great loss for the community. Such brilliant students who could be an asset for the community are wasted away due to indifferent attitude of those of us who can afford financial help for such extremely deserving students.

This figure is not very large. In the beginning if we started with only 20 students (This is based on number of applications received by the) it should not be difficult for the Foundation to support them.

Firstly, the students studying in the rural areas do not require very highly monthly tuition fee. Secondly they are not totally dependent on external financial help therefore a partial support from the Foundation can help them complete their education and become very useful member of the community.

This is a matter of great pleasure and satisfaction for us that NATIONAL VOCATIONAL AND TECHNICAL TRAINING COMMISSION (NAVTTTC) GOVERNMENT OF PAKISTAN has granted accreditation approval in four of our Technologies and issued the Orders through their Letter dated Feb 12th. 2021. Copy attached.

The credit goes to all members of Houssine Foundation specially to Hassan Abullo for his continuous efforts to establish this INSTITUTION as well as equipped the Institution with sufficient Machinery and equipment's.

We congratulate you all for this support that we have been able to get this accreditation provisionally for three years' from 21st Jan, 2021 To 20th January, 2024.

You will also be pleased to know that during the last three years more than 250 students have been pass out of the INSTITUTION with three years Diploma and more than 70 students have been able to get Jobs in Navy, Ai Force, Army MES, Wah Factory, some other Companies as well as jobs in Abroad.

One another matter of pleasure is that during 2020, and 2021 we have been able to get Two projects for 50 and 75 students providing them Training of INDUSTRIAL ELECTRICIAN and SOLAR GEASER INSTALATION/ Plumbing of six months with complete satisfactorily according to their requirements.

The projects were given to us under the Prime Minister Skilled Development Scheme 2020 and Prime Minister Kamyab Nojawan Scheme 2021.

We assure you sir that we are trying our best to work hard for the betterment of our poor and unskilled population and to get maximum benefits of this institution.

May Allah bless you all for giving priority to the welfare of our neglected and poor community.

The letter and the certificates are forwarded for your information and record.

F.No. 4(85)/2020-Acc/Al-Asar Instt/ Kohat

SUBJECT: PROVISIONAL ACCREDITATION OF AL-ASAR INSTITUTE OF TECHNOLOGY, USTERZAI PAYAN KOHAT. (APP # 967)

National Vocational & Technical Training Commission (NAVTC) has been mandated through an Act of Parliament No XV of 2011 clause (6)1 for accreditation of TVET institutes and related bodies across Pakistan in order to uplift quality and standards of technical & vocational, education & training. In this context NAVTC has taken initiative to accredit institutes at a mass level.

Your institute was visited by our experts in order to accredit in accordance with the guidelines described in the Accreditation Manual of NAVTC. We feel great pleasure to inform you that accreditation assessment report of your esteemed institute was presented in the 16th meeting of TVET Accreditation & Quality Evaluation Committee (TA&QEC) of NAVTC, held during Oct 27-29, 2020, and after a detailed discussion the committee granted accreditation approval in the following programs/trades:

| S.No | Name of Program with Duration | Period |
|------|-------------------------------|---|
| 1 | DAE Civil 03 Years | 21 st Jan, 2021 to 20 th Jan, 2024 (3 Years) |
| 2 | DAE Electrical 03 Years | |
| 3 | DAE Mechanical 03 Years | |

As per regulations, the accreditation report contains two types of recommendations i.e. urgent and non-urgent recommendations (copy attached). The recommendations are required to be complied with and reported subsequently to NAVTC within nine months at most, failure to which the accreditation status of the institute may be revoked. Formal accreditation certificate will be issued in due course of time.

ACCREDITATION REPORT FOR
AL-ASAR Institute of Technology, Usterzal Payan, Kohat

ACCREDITATION RECOMMENDATIONS

The accreditation assessment team suggests the following recommendations:

The Al-Asar Institute of Technology will not be awarded an **Institutional Accreditation as it could not obtain 50% score in some critical areas (i.e., 1.2, 1.3, 1.4, 2.6, 3.4, 3.6, and 9.1)** though the institute achieved 501 marks out of total 1000 marks (50.1%) in the institutional assessment.

Vertical Assessment:

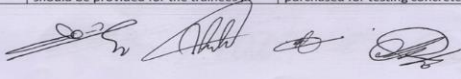

- 1. **DAE Civil Technology:** Score obtained 164 out of total 255 marks (64.31%)
- 2. **DAE Electrical Technology:** Score obtained 167 out of total 255 marks (65.40%)
- 3. **DAE Mechanical Technology:** Score obtained 172 marks out of total 255 marks (67.45%)

Horizontal Assessment:

- 1. **DAE Electronics Technology:** Score obtained 57 out of total 80 (71.20%)
- 2. **Industrial Electrician (3-6 Months) course:** 45 out of total 80 (56.25%)

Since the institute has attained **more than 50% marks** in Civil Technology, Electrical Technology and Mechanical Technology in vertical assessment and also more than 50% score in DAE Electronics and Industrial Electrician (3-6) months course in horizontal assessment, therefore, the Program accreditation will be awarded in all these Trades.

| Civil Technology | | |
|------------------|---|--|
| S. No. | Urgent Recommendations | Non urgent Recommendations |
| 1 | Consumable materials in concrete lab should be provided for the trainees in | Compression testing machine should be purchased for testing concrete cubes |

Constriction of houses District Badin

In District Badin Construction of 12 houses (03 Houses in Talhar , 01 House in Mirpur Bathoro, 02 Nindo Sher 01 Tando Bago, 02 Kadhan and 03 Badin) are completed and after the 25% handed over to the beneficiaries.

APPEAL FOR LOW COST HOUSES PROJECT

Shelter Room 12 x 14 (Thatched Roof mud bricks masonry)

Approx. Cost RS.60,000/=

Hussaini Foundation Contribution RS.30,000/=

We support each effected family for US\$200/-. The donation covers the cost of purchases of main material and balance will be contributed by the effected families. This type of house will last anywhere between 5 to 7 years.

MONSOON RAIN DISASTER INTERIOR (SINDH) PAKISTAN

Due to the heavy rains in the province Sindh the part of lower Sindh has been very much effected. The crops are totally damaged their houses and in 3 to 4 feet of water. It happened so fast that they could not save any of their belongings. Everything is under the water even their wheat and all the food grain is destroyed. They have migrated to the higher grounds. Their first priority is food stuff (Ration). As the water recedes we will have to help them rebuild their houses. At the moment **we have 400 families who need help. The package of Ration will cost us approx. RS 3000.**
